Good afternoon everyone,

Attached in this email thread you will find 19 service requests/complaints that were made to 3-1-1 for 2308 S. Union. This information is supportive evidence as to why the community objects to ANY expansion of this establishment's request regarding CUB case #ZA-2024-2773-CUB. Do as you need with this information for next week's meeting on Thursday, August 1, at 6:30 p.m. with NANDC's full board to approve or deny this establishment's request for expansion. I am also attaching the screenshots of the search results page for all of these service requests from the myLA311 website. I will also share pictures that I've taken as further evidence to support the community's objections to these plans. Please let me know if you have any questions or concerns, or reach out to Aurora Becerra, who is the person spearheading these efforts with the community.

Best regards,
Liliana

Subject: Re: myLA311 Service Requests for 2308 S. Union

Hi all, I manage outdoor dining applications in the street and have discussed this with Aurora already. I have read through this document(Attachment A) and saw it says, "The restaurant will also provide 705 square feet of outdoor dining on the sidewalk and on the street." I thought this was very strange as the business has not even applied for outdoor dining in the street, and it seems to imply that if they applied they would be approved. Given that the council office requested the removal of their outdoor dining area in the street two years ago, we would not approve any future applications we receive from them without the council office's approval. I just wanted to share that LADOT has not received an application from them and would not approve an application from them at this time.

Thanks for reaching out and take care.
